EQUITY, DIVERSITY, AND INCLUSION

The global pandemic has disrupted society like no other event in history, vividly highlighting the reality of inequities across the nation.

Equity, diversity, and inclusion are now in the corporate conversation and organizations and institutions are taking steps to create opportunities for underrepresented populations.

EQUAL RIGHTS – MAKING MOVEMENTS

How far have we come? The fight for Gender Equality often does not receive the same attention as the equally consequential Civil Rights movement.

A 2017 report by the National Women's History Museum determined that there's only one woman mentioned for every three men in our history books.

This partnership is an opportunity to celebrate the women of the suffragist movement and their pivotal role in America's textured history.

OUR MISSION - INSPIRED PROGRESS

The Suffrage Education Institute in partnership with Discovery Education believes educating our youth about the past will truly influence the future. Together, we will build an educational impact program to be launched nationwide and available to 100% of the population. The goal is to create a national education program accessible to everyone. Participants will:

- Recognize key components that define the Women's Suffrage as a civil rights movement.
- Bridge historical landmark events with relevant connections to past and present outcomes.
- Be Inspired to drive future impact by understanding their role in continuing progress.
